

# Gaeun Ji

✉ jikhwn@khu.ac.kr     linkedin.com/in/gaeunji     gaeunji.github.io

## Research Interests

- AI Safety & Security: Jailbreak Defense, Red-Teaming, and Alignment
- Trustworthy AI: Interpretability, Hallucination Mitigation, and Evaluation

## Education

|                                                                                          |                                                    |
|------------------------------------------------------------------------------------------|----------------------------------------------------|
| <b>Kyung Hee University</b><br><i>M.S. Computer Science</i><br>Advisor: Prof. Suhyun Kim | Suwon, South Korea<br>Mar. 2026 – Present          |

## Research Experiences

|                                                                                                                                                                                                           |                                             |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| <b>Soonicorn</b><br><i>Research Intern</i><br>Researched VTON models and restored fine-grained garment details in real clothing images.                                                                   | Seoul, South Korea<br>Apr. 2026 – Present   |
| <b>Data Intelligence and Learning Lab, Seoul National University</b><br><i>Research Intern</i> (Advisor: Prof. Hyunwoo Park)<br>Conducted research on Graph Neural Networks (GNNs) and anomaly detection. | Seoul, South Korea<br>Aug. 2025 – Nov. 2025 |

## Publications

[P1] **Safeguarding LLMs via Model-Agnostic Latent Safety Signals from Dark Knowledge**  
Wonjun Lee, Kyungsik Yang, **Gaeun Ji**, Vaidehi Patil, Haon Park, Bumsu Ham, Mohit Bansal, Suhyun Kim.  
*Preprint, 2026.*

## Awards/Honors

|                                                                                                                      |           |
|----------------------------------------------------------------------------------------------------------------------|-----------|
| <b>University Data Analysis &amp; AI Competition</b><br>2nd place, the university's central Data Analysis & AI club. | Jul. 2025 |
| <b>Outstanding Student Scholarship</b><br>Kyung Hee University                                                       | 2022      |

## Certifications & Languages

TOEIC 960 / OPIc IH / TEPS 426  
SQL Developer, Kdata, 2025  
Engineer Information Processing, Human Resources Development Service of Korea, 2025
